

ČESKÁ SPOLEČNOST FYZIKŮ V MEDICÍNĚ o.s.
CZECH ASSOCIATION OF MEDICAL PHYSICISTS

Prague, February 5th, 2008

Dear President of the EFOMP National Membership Organization,

It is my great pleasure to send you the enclosed Call for *AAPM ISEP Training Course on Clinical Dosimetry and Quality Assurance for Advanced Radiation Therapy Techniques* to be held in *Prague, Czech Republic, on 16-20th June 2008*.

The course is organized by the *Czech Technical University, Department of Dosimetry and Application of Ionizing Radiation*, in collaboration with the *Czech Association of Medical Physicists (C.A.M.P.)*, under the patronage of *AAPM*.

This training course represents a unique opportunity for those medical physicist, dosimetrists, radiation technologists, and radiation oncologists from your country who need or plan to update their knowledge of QA procedures vital to modern radiotherapy techniques.

A complete information about the *AAPM ISEP Training Course* is available on the course website www.aapmtc-prague08.cz . In case of your interest, specific information materials in the electronic and/or printed forms are also available (on demand).

We would appreciate very much if you consider distributing the information about this training course among the members of your national medical physics society.

Sincerely

Libor Judas, PhD.

*President, Czech Association of Medical Physicists
(on behalf of the organizing committee)*
